MAXHUB Pivot⁺

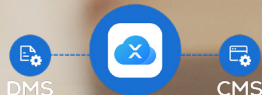

MAKE MANAGEMENT SIMPLER, MORE EFFICIENT, SAFER

Device Control | Software Management | Content Distribution | Resource Management

Full-Cycle Management

Cover the entire lifecycle of device deployment, operation, and maintenance.

All-in-One

Combine device management and content distribution into one platform for integrated operations.

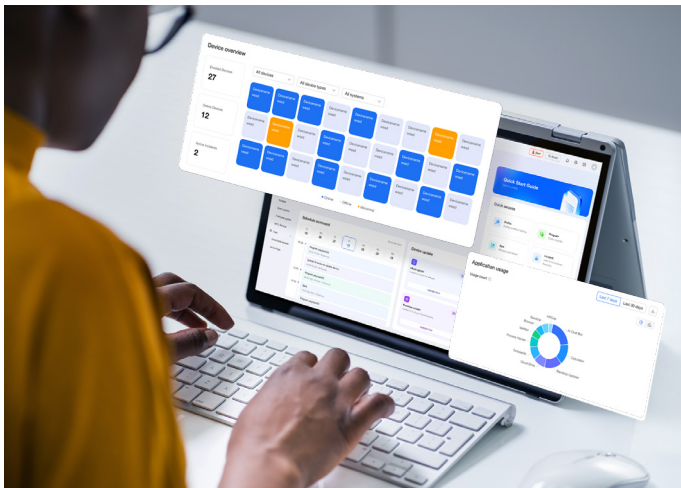

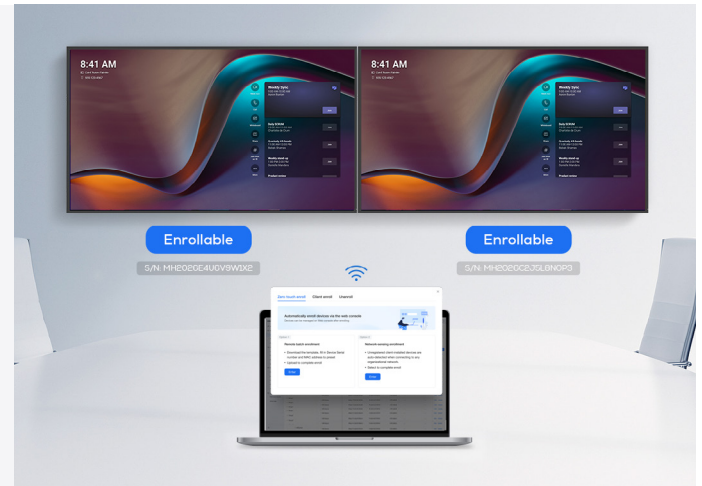

Security & Compliance

Adhere to GDPR, SOC, and NIS2 compliance standards to ensure data and device security.

ENROLLMENT - ZERO-TOUCH

- Start Using Immediately, Deploy Efficiently

Pre-import serial numbers/MACs for auto-enrollment, auto-detect LAN devices for one-click batch enrollment.

MANAGEMENT - GLOBAL CONTROL

- Smart Dashboard

View device status, tasks, and resources at a glance. Manage everything with one click.

- Multi-Device Management

Centrally control MAXHUB Windows, Android devices. Remotely send commands and configure settings in batches.

- App Management

Batch install apps, and remotely manage (enable/disable/uninstall) apps on devices.

MAINTENANCE - INTELLIGENT SUPPORT

- Multi-Device Screen Control

Remotely control the screens of multiple conference room devices simultaneously to boost efficiency in issue diagnosis and troubleshooting.

- Custom Incidents

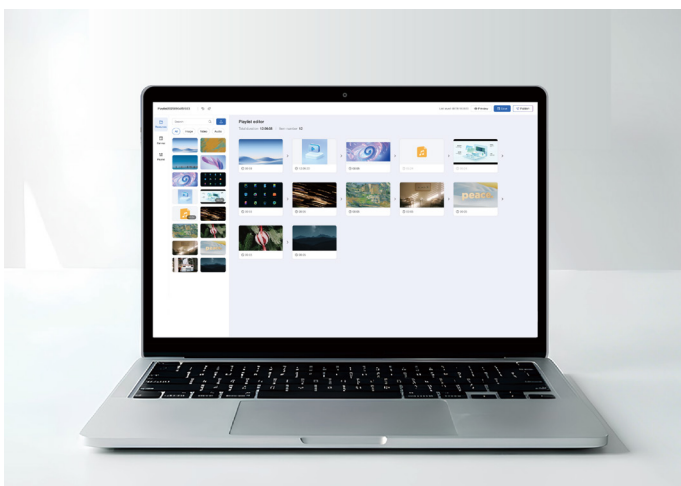

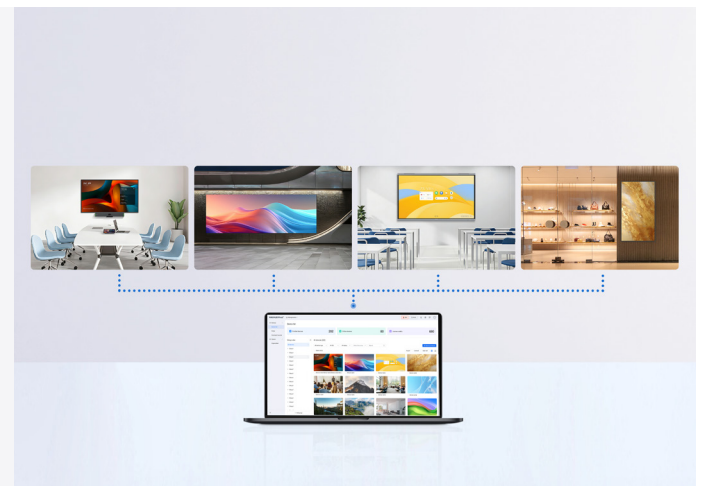

Monitor devices in real time, set custom incidents for issues, and notify the right people instantly.

- Smart Firmware Updates

Auto-detect new firmware versions; update devices in batches (or automatically) to fix issues quickly.

- Centralized Log Management

Keep all logs in one place—never lose records, full traceability at all times.

CONTENT DISTRIBUTIONS - EASY FOR EVERYONE

- Store Assets Freely

One-stop repo for all assets (images, videos, docs, etc.) with auto-categorization—neat, efficient resource management.

- Assemble Content Freely

Mix components/multimedia on an intuitive canvas; craft tailored promo content for diverse scenarios effortlessly.

- Arrange Programs Flexibly

Combine stored assets/custom content on demand to build ordered playlists—smooth, flexible sequencing.

- Set Releases Easily

Drag-and-drop calendar for time slots, one-click playback schedules—streamlined content release.
