

MAXHUB

MAXHUB F5 SERIES

**Built for the Future of Education.
Powered by Windows. Enhanced by AI.**

A Windows-native interactive display that combines AI-powered teaching tools, immersive classroom experiences, and intelligent classroom insights—helping teachers teach naturally, students learn actively, and schools continuously improve learning outcomes.

Teaching, Enhanced by AI - **EasiClass**

Made for Long Lessons. Clear for Students.

In real classrooms, students view the screen from different angles and distances. MAXHUB F5 Series combines wide-angle optical and eye-care technologies to help improve viewing comfort.

Wide-Angle Optical Film Technology

Improves side viewing brightness up to 4× for clear visibility from all angles.¹

Anti-Glare Glass

Minimizes reflections for better visibility in bright classrooms.

DC Dimming Technology

Provides stable brightness to help reduce eye strain during long viewing.

Low Blue Light

Reduces blue light emissions to help support visual comfort during extended viewing.

Clear Sound in Every Corner of the Classroom.

AI Voice Enhancement with 2.2-Channel Audio

AI-based voice enhancement improves speech clarity in real time, while the 74W 2.2-channel speaker system delivers rich, balanced sound with enhanced vocal presence.

Skywave Sound System for Extended Sound Reach

MAXHUB F5 Series features the Skywave Sound System with a front-facing speaker design and 88dB Sound Pressure Level (SPL), delivering clearer sound projection and up to 4x longer sound transmission distance² compared with traditional speaker designs.

8-Microphone Array for Remote Learning

MAXHUB F5 Series features an 8-microphone array with AI audio processing and up to 12m voice pickup³, enabling clearer communication for remote teaching and video conferencing.

See the Whole Classroom. Support Active Learning.

Powered by AI classroom perception and a multi-focal camera system, MAXHUB F5 Series gives teachers a clearer view of classroom activities, making lessons more engaging and teaching more responsive.

Built for Everyday Teaching.

Engineered for reliable classroom performance with enhanced durability, energy efficiency, and long-term support.

Footnotes

¹ Up to 4× for clear visibility from all angles ² Up to 4× longer sound transmission distance ³ Up to 12m voice pickup

Performance data is based on MAXHUB internal laboratory testing under controlled conditions. Actual performance may vary depending on product configuration, installation environment, room layout, acoustic conditions, ambient lighting, network conditions, and other usage factors. For ¹, the comparison is based on a conventional display without Wide-Angle Optical Film Technology. For ², the comparison is based on MAXHUB's conventional bottom-mounted speaker design.

⁴ Privacy Notice

Powered by on-device AI with zero cloud upload and no facial recognition. Raw images are deleted immediately after processing. All video streams and related data remain on the device and are not uploaded to the cloud.
